To whom it may concern

(Statement with regards to Regulation 1907/2006 – REACH and related candidate list of substances of very high concern according to article 59)

The company PRECISION TUBES EUROPE s.r.o., is a manufacturer of welded stainless-steel tubes.

In terms of REACH regulation, we identify our position as the manufacture of article and downstream user. An article pursuant to the REACH regulation is an object to which during production is given a special shape, surface or design that determines its function to a greater degree than does its chemical composition.

The chemical composition of delivered products is not changed or influenced during the whole production process in Precision Tubes Europe.

Therefore, we can rely on the declarations of our base material suppliers only. According to these declarations, we can, in reliable and responsible manner, declare that the substances listed on the candidate list of substances of very high concern ([Candidate List of substances of very high concern for Authorisation - ECHA](#)) are not present in delivered products: **stainless steel tubes**.
